ESPEN

infections
- Data inspection & structuring
- Equivalent location identification

association
- Determines the degree of association, i.e., correlation, between the null cells of a pair of variables.

preliminary
- ESPEN Missing Data Analysis
- Exploratory Data Analysis

IHME
WaSH Maps

r geodata
Population Density Maps

SEDAC

worldclim.org
World Elevation Map (30s)

SRTM

spatial
- Extracting data features from maps
- Integrating infections & spatial data.

All ESPEN countries

modelling
- Exploratory analysis
- Preliminary investigation via generalised linear mixed modelling.
- Binomial geostatistical logistic modelling.
